PORTUGUESE ARE ON THE WARPATH

TROUBLE REPORTED ON THE ISLAND OF MACAO—THE REBELS IN CONTROL

Macao, Island of Macao, China, Nov. 30.—The Portuguese troops of the local garrison and the crew of the Portuguese gunboat, Patria, revolted last night and, taking possession of the city, proceeded to enforce certain changes in the administration of the affairs of this dependency of Portugal.

The rebels continued in control today, the governor and military officers being powerless.

The revolt began with the landing of the sailors of the Patria, who marched to the public square where they fired three volleys as a signal to the troops, who at once forced an entrance into the armory and arming themselves, joined the seamen.

Several hundred strong, the rebels proceeded to Santa Clara convent from which they drove out the nuns, ordering them to leave the island. The nuns fled to Hong Kong.

From the convent the rebels marched to Government House, before which they mounted a cannon. An interview with the governor was requested and when the officers at the Government House intervened, they were silenced at

the points of the bayonet.

The governor was compelled to hear the demands, which were the expulsion of the religious orders, increased pay for the army and navy, the suppression of the newspaper, Vida Nova, and the righting of the alleged wrongs suffered by the soldiers and sailors.

Under threat, the governor granted every demand.

No casualties are reported, but the military officers say that they have lost all control of troops. The security of life and property are not guaranteed.

MANY ATTEND DEMON- STRATION AT CRITERION

There was a large and appreciative audience out last night to attend the Criterion theatre where the hookworm exhibit was on and explanations given by the learned physician.

The hookworm was thoroughly explained by Dr. Orr and the stereoptical views shown made the lecture both beneficial and interesting.

This entertainment will be on again tonight, and everybody is invited to attend, and reap some of the benefit offered by the Rockefeller campaign for the eradication of hookworms in the South.

NEGRO ATTEMPTS TO KIDNAP CHILD

Negro Carries Little Girl Off In Buggy But Releases Her When She Screams—Citizens Aroused.

Greenville, Ala., Nov. 30.—A negro, whose name is not known, attempted today to kidnap a child of Sam Kickman, who lives about seven miles from town.

The little girl, who is about three and a half years old, was playing alone in the front of the home. A negro man, driving two mules, passed, and stopped near the child, asked her if she did not want to ride. Picking her up he put her in the buggy and concealed her in the lap robe.

The child began crying and begging to be allowed to go home. Her screams became so loud the negro put her out of the buggy.

A posse of indignant men went out to the neighborhood, the report being that the negro had been caught, but it proved to be the wrong negro. The search for the negro will be continued.

MASS MEETING IS POSTPONED

SCAFFOLDS BEING TORN DOWN TODAY

GOVERNMENT BUILDING WORK IS PROGRESSING ON THE OUTSIDE.

It is an item of much interest that the scaffolds around the government building were taken down today, showing off the building in a way that is most gratifying. Work has been in a day or two finishing up some plastering on the outside, and that has been completed now, and the removal of the scaffolds from around the about finished. There is much work to do yet on the inside, however.

It Was Finished
Yesterday evening at three o'clock, Standard time, the last paving brick was laid on Dothan. This important event was scheduled to have come off early in the summer, but it didn't occur.
Those who have been betting that the government building would be finished before the streets were paved have lost their John B. S. The federal building crowd is making progress that shows, however, for they about completed the plastering on the front side of the building at the time last brick was laid. Their job isn't near finished, however, for the latsunning faded, lost its lustre, or gloss, or something like that and will have to be dug off with a pick and some more put on. Up there, when anything goes wrong, they sit down and wait for the proper man to come and tell them what to do about it, and he doesn't mind telling them. When it is finished, we think that the government will have the worth of the money invested.
We really think that the city of Dothan has the worth of the money it put into the paving of these streets.

Changing Fuel
There is a growing demand in this town for coal. People are burning coal now who have been burning red oak wood and pine knots all their lives. There are no more red oak, or post oak, or white oak, or black jack, and pine knots. They are probably to be found further back from the town but the people who are hauling them to town find that it is a good deal of trouble, and they are charging about twice the price that such truck sold for a few years ago. The price of wood going up every year has put more people to buying coal, which is a good deal cheaper for heating purposes, at present prices.
If a couple of cold days were to come together, with a touch of snow and ice, it would cost the average family a load of wood every twenty-four hours, which in some instances amounts to a couple of dollars.
Many people are cooking with coal, and it will not be many more years before somebody will start up a gas plant here, and then cooking with gas will take the place of coal and wood.

Work Them on the Roads
This county has had a crew of hands building roads for some time. It is said now that the money has run down, and but little more will be done on good roads till the treasury has been patched up.
The county employs a road foreman, and several laborers, with teams. At the same time the county is leasing its convicts to other

parties, either to mine coal or run saw mills and turpentine camps. The price the county gets for its convicts isn't half as much as it is to pay for laborers to work on the road. There is no reason why the county convicts shouldn't be kept in Dothan county and used on the roads. There would be little extra expense in keeping them, probably, not more than working free labor.
The county commissioners should consider this, and instead of sending the county convicts out of the county, keep them on home, doing work that the county is paying good money for.

Up in Massachusetts the game law is different from ours. The open season for deer shooting lasts six days and that date has come passed. It is estimated that 1,000 deer were killed during the week, and a bonus of \$100 for each deer killed must be paid. According to this, the deer ought to live to a ripe old age in Massachusetts unless they have a lot of retired politicians up there, who haven't engagements just now.

A Mexican miner, of Colorado, dreamed that the mine blew up, and when he told his companions about it, they wouldn't take any chances, and so they walked out to wait till the catastrophe should occur. The number of mine disasters over the country, it is likely that these miners pursued the wisest course.

"Solidified Petrol" is the name of the stuff that will run the automobile of the future. From its name, we judge that John D. has a hand in it somewhere, still it is claimed that the new discovery is a third cheaper for engines than gasoline. It is thought that it will soon be on the market, for use in all kinds of gasoline engines, and it being solid, one can wrap up a stick or two of it and put it in the machine. It has no odor, and is more reliable as a fuel, for the carburetor is done away with.

Almost any working day from now till the first of January, you can go around to the tax assessor's office at the court house and pay your taxes. While there, you can return your taxes. Don't grumble at the amount, for you will be alone in this. The town of Dothan wants to see you also, down at its office, where you can get a tax receipt of another style, shape and design. When you get this matter off your mind, then begin to turn in some talk about shopping early.

Twenty days more to do your shopping in. You don't have to do it at all, but the chances are that about the time the crowd starts home on Saturday night, the 24th, you will think of something that you could just as easily have bought any day during this month.

Don't know when we had thought of Cassie Chadwick till we noticed an article in the papers about the death of the cashier of the bank she looted for a few hundred thousand a few years ago.

Old Joe Cannon and Champ Clark made the trip from Washington to New York a day or two ago, and it is thought Old Joe told Champ what the speakership was like without the power to appoint committees.

THEY ARE LEADERS

The 125 odd suits that we had last week are proving leaders. These suits are selling, because they are all new of the latest styles and patterns, and because they are sold for

ONE THIRD LESS

Than the former price. Winter hasn't begun yet, and much good service is ahead for these suits. You ought to come by and look at them--some excellent designs left, and you will have no trouble in being fitted. It is not often that you get suit-bargains of this character. This lot is on a rack--the bargain rack, where one-third is taken from the former price, and they are yours.

CONDUCTOR SUCCEUMBS TO HEART FAILURE

W O James, a well known young man who had been from Montgomery to Dothan several days, died yesterday afternoon of heart failure while on duty. Death came a few minutes after Mr James had alighted from an engine at Waterford a few miles from the city.

Mr James was in apparently perfect health when he left Montgomery, and, along his run, but when he alighted from the engine of his train, he fell with heart failure and succumbed a few minutes later.

He has been running to Dothan for several months, and is well known in this city, especially in the railroad circles.

He was about 35 years old. The body was brought to Dothan last night, where it was prepared for burial. The remains left this morning for Montgomery, where the funeral will take place this afternoon.
